

## **Sound policy AB**

- Monday - Thursday no music allowed between 7.00 - 11.00 am
- After Thursday we can play as long as we want (but we will stick to our line up and decide spontaneously if we go longer in the morning)
- Music stops on Sunday midnight (boomboxes included)
- Max volume at the stage is 95 Dzb (dezibel display in the booth)
- Max volume around the stage is 60 Dzb (distance of 50-60 m)

## **Tasks Sound Shift**

- Make sure set-up is functionable and there
- Sound check with the artists if needed
- Check- in with the artist (they arrive 30 mins before the set)
- Check the decibel measurements so that we comply with the burn rules
- Make sure the sound is good and the equipment is ok (undust it if possible or needed, but never try to blow it away - use a wet tissue)

## **Tasks stage & artist mgmt**

- Welcome the artists - explain the space, the camp rules
- Make sure the backstage is not too crowded and check whether people are obliged to be in the backstage
- Check the whole stage :is everything tidy , are there any problems
- Check people don't put their drinks on the dj booth - be kind and remind people to not put their drinks close to the technical equipment
- Make sure the stage looks good - in case there is a lot of moop: try to find other whynotters and make them do a moop session - there should be always someone at the stage who is willing to help

## **Tasks Awareness**

- inform rangers when people might need help (drug overdose, trouble )
- if you notice someone being uncomfortable or struggling with someone or something offer them help / support
- inform rangers if more help is necessary (drug overdose, trouble)
- walk the Chillout and Love Tent area regularly to ensure everyone is fine
